EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David O'Brien on 4/14/2005.

2. The application has been amended as follows:

- In claim 1, line 8, after "the locking mechanism locking" --the joint and thereby restricting-- has been inserted.
- In claim 18, line 11, after "the locking mechanism locking" --the joint and thereby restricting-- has been inserted.
- In claim 33, line 8, after "the locking mechanism locking" --the joint and thereby restricting-- has been inserted.

3. The above changes have been made in order to distinguish the claims from the prior art of record.

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1, 18, and 33 is the limitation of a joint coupling first and second keyboard segments, the joint including a socket and a ball retained therein, a locking mechanism locking the joint and thereby restricting the

pivoting of the first keyboard segment relative to the second keyboard segment, wherein the socket retains the ball in both locked and unlocked positions, in combination with other claimed structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
